OSAMA AHMAD TAWEEL

Amman Jordan | +96277882080 | osamaahmad4923@gmail.com

Summary

Motivated and skilled full-stack developer with strong experience in web and mobile application development. Proficient in modern technologies including React.js, Node.js, Express.js, and Flutter, with solid understanding of both frontend and backend development. Adept in working with databases like MongoDB and SQL, and building scalable, high-performance systems using ASP.NET, Java, and C++. Experienced in creating responsive user interfaces using Tailwind CSS and Bootstrap. Passionate about clean code, continuous learning, and delivering reliable software solutions across platforms

Education

Computer Science   01/2025
Applied Science Private University

- Recognition for Extended Research Paper
- Graduation Project: Empowering IT Students: A Digital Framework for Soft Skills Assessment
- Description: Develop a digital framework to assess and develop the soft skills of IT students, with the aim of enhancing their readiness for the labor market. The system allows students to self-evaluate and track progress in skills such as communication and problem solving. Technologies used: MERN Stack (React.js, Node.js, Express.js, MongoDB).
- GPA: Very good

Work Experiences

- **React.js** – Building interactive and robust user interfaces
- Node.js with Express.js – Developing efficient and scalable backend applications
- Tailwind CSS – Rapid and flexible UI design
- Bootstrap – Responsive and attractive user interface development
- **Databases**
- MongoDB – Flexible and scalable NoSQL database management
- SQL – Managing and querying relational databases
- **Mobile Application Development**
- Flutter – Building cross-platform mobile applications (iOS and Android) with beautiful UI and high performance
- **Microsoft Technologies**
  * ASP.NET MVC – Developing powerful and structured web applications
  * ASP.NET Web API – Creating RESTful web services for web and mobile apps
- **Programming Languages**
- Java – Object-oriented programming and GUI development with JavaFX

- C++ – High-performance programming for systems and game development

Graduation Project

Empowering IT Students: A Digital Framework for Soft Skills Assessment, Develop a digital framework to assess and develop the soft skills of IT students, with the aim of enhancing their readiness for the labor market. The system allows students to self-evaluate and track progress in skills such as communication and problem solving., MERN Stack (React.js, Node.js, Express.js, MongoDB)

Certifications

- Meta front-end developer specialization, 2025, Coursera
- Microsoft Course, 2024, University of Jordan Gate Center
- HR Course, 2024, University of Jordan Gate Center

Skills

- Frontend Development with React.js
- UI Design with Tailwind CSS and Bootstrap
- Cross-Platform Mobile Apps using Flutter
- RESTful APIs using ASP.NET Web API
- Building Scalable and High-Performance System
- Backend Development using Node.js and Express.js
- Database Management with MongoDB and SQL
- Web Application Development with ASP.NET MVC
- Object-Oriented Programming (OOP)
